Make a suffragist sash activity

Use these directions to make a suffragist sash to wear!

Materials:

- a long piece of extra wide ribbon
  (a long skinny piece of fabric also works)
- 1 safety pins
  (straight pins, needle and thread, tape, binder clips, or anything else that can be used to hold fabric together also works)
- sharpies
  (markers or pens also work)

Instructions:

1. Make sure that your piece of ribbon is long enough to wrap from one side of your waist all the way over your shoulder and down your back to meet the other end of your ribbon at the waist again (like in the photo below).

2. After you’ve made sure your ribbon is long enough, lay it flat on a surface you can draw on.

3. Use your sharpies to decorate your sash. You can use a historic slogan from suffragists of the early 20th century, such as “Votes for Women,” or you can create your own.

4. After you finish decorating your sash, wrap it back around your upper body and secure it at your waist with a safety pin. All finished!
